ITALIAN COMPANIES IN HONG KONG & MACAU

There are approximately 300 Italian companies with Regional Headquarters, branch or representative offices in Hong Kong & Macau. Among these, 7 are bank branches and/or representative offices, 2 insurance groups, 1 in telecommunication business; 41 are mechanical or engineering companies, 66 of them are dealing with consumer products (clothing, food, toys, lighting, etc.), 8 of these are servicing companies; 18 are in logistics sectors, another 2 are cruise companies and 7 legal practices (among these practices, 2 are Italian and 5 with Italian lawyers).

In this study, we have conducted a statistical analyst of the Italian companies registered in our database and verified their latest information.

We are aware that this booklet might not contain all the existing information that are present in Hong Kong and Macau, therefore, we are pleased to take in any suggestions or advices that might arise.

Paolo Lemma
Acting Trade Commissioner

All listed information in this booklet is based on the questionnaires completed and returned by individual companies and is subject to change. No warranty is given or implied as to the accuracy of the information.

Istituto nazionale per il Commercio Estero - I.C.E. Italian Trade Commission – Hong Kong Office

The Italian Institute for Foreign Trade (ICE), also known as Italian Trade Commission is the government agency which promotes, facilitates and develops trade between Italy and the rest of the world. ICE helps Italian companies to grow in foreign markets and promotes inward-outward investment.

ICE also carries out an intense training activity for Italian and foreign managers operating on international markets to promote the “Made in Italy”.

Located in Rome, the Head Office operates in connection with a worldwide network of offices (16 regional offices in Italy and 116 operational units in 88 countries).

S.IN.C.E., the Italian Foreign Trade Information System that can be accessed at www.ice.gov.it, along with an extensive application of IT resources, facilitates the continuous exchange of data from the network. This allows ICE to respond in real time to the new challenges of the global market.

Foreign companies can also reach ICE through the specialized official website, www.italtrade.com, where they can obtain information and assistance, in order to source potential Italian partners.
